This waiver and release is intended to and does release City of Georgetown from any and all liability for damages or injuries on account of or in any way related to or growing out of my negligence, the negligence of third parties and City of Georgetown's negligence. This is not intended to release City of Georgetown from any liability resulting from their intentional conduct.

I further covenant and agree not to institute any claims or legal action against City of Georgetown for any claim released by this Agreement. I further agree that should any claim be made against City of Georgetown in contravention of this Agreement, including but not limited to derivative claims, I will protect, defend and completely indemnify (reimburse) City of Georgetown for any such claim and expenses including attorney's fees and costs incurred by City of Georgetown in defending themselves or security indemnity hereunder.

SAFETY GUIDELINES FOR EVENT VOLUNTEERS

- Make sure you are seen by the motoring public by wearing your reflective safety vest that will be provided.
- Do your best to make eye contact with the motoring public as you are providing common hand signals for directing traffic.
- **To stop traffic** - Two motions are required. Extend the arm straight out and point at the driver who is to stop. Make eye contact with the driver and when you have his attention raise your hand (not arm) so that your palm is toward the driver. Hold this position until the driver stops. After the driver has stopped repeat the same movement with the other lane of traffic with the other arm. Keep both arms in the stop position until all movement has stopped in both directions. With traffic stopped turn your sides parallel to the traffic you will be starting.
- **To start traffic** - Two motions are required. First, point with the arm and finger directly to the driver you want to start. When eye contact is made, turn palm up and raise the hand to a position slightly past the center of your face. Bend the arm only at the elbow. If the driver does not move immediately repeat the signal. After traffic has begun to move signal the other lane in the same manner using the other arm. Continue to use this signal to instruct drivers to proceed.
- As you are crossing the street or assisting someone, always look left, right, and left again before crossing a street, and keep watching as you cross. Be aware that drivers have differing levels of eyesight and skill in operating motor vehicles.
- Prior to the event you are volunteering for, make sure you have a reasonable understanding of the streets and connecting streets so that you can redirect pedestrian and motor vehicle traffic to an alternate route.
- If an emergency vehicle approaches (police, fire, medic) stop all traffic (pedestrian and other motoring traffic) and allow the emergency vehicles to have the right of way.
- If you are given a police radio, make sure you are on the correct channel and monitor the radio. If you need police assistance, use the radio and request assistance from the event supervisor and or other officers working the event.
